PROFESSIONAL SUMMARY

Computer Science and Engineering student with strong academic performance and practical exposure to Data Analytics, Artificial Intelligence, Blockchain Technology, and Software Development. Experienced in developing data-driven solutions, academic research projects, and analytical dashboards. Passionate about transforming raw data into actionable business insights and solving real-world problems through technology.

EDUCATION

Hindustan Institute of Technology and Science (HITS), Chennai
Bachelor of Technology – Computer Science and Engineering (2023–2027)
CGPA: 8.62 / 10.00

RELEVANT COURSEWORK

Data Structures and Algorithms, Database Management Systems, Operating Systems, Computer Networks, Software Engineering, Artificial Intelligence, Data Analytics, Machine Learning Fundamentals, Cloud Computing

TECHNICAL SKILLS

Programming: Python, Java, SQL, JavaScript
Analytics: Data Cleaning, Data Visualization, Statistical Analysis, Dashboard Development
Tools: Excel, Power BI, Tableau, Git, GitHub, VS Code, Jupyter Notebook, Google Colab
Technologies: Blockchain, AI Applications, IoT Fundamentals, Web Development

ACADEMIC PROJECTS

Blockchain-Based Certificate Verification System – Secure certificate authentication platform using blockchain hashing concepts to prevent document fraud.

IP-Based Attendance Management System – Smart attendance system that validates attendance using authorized network identification.

AI Mock Interview Evaluation Platform – AI-powered platform for generating interview questions, evaluating answers, and providing feedback reports.

Student Performance Analytics Dashboard – Analytical dashboard for monitoring academic performance, attendance trends, and student progress metrics.

Retail Sales Data Analysis Project – Performed exploratory data analysis to identify customer behavior patterns and business performance indicators.

Library Management System – Database application for efficient book inventory management and reporting.

Weather Forecast Dashboard – Interactive dashboard displaying weather trends, forecasts, and data visualizations using APIs and Python.

Employee Management System – SQL-based management solution for employee records, payroll information, and reporting.

Movie Recommendation System – Recommendation engine utilizing machine learning concepts to suggest personalized movie selections.

Smart Classroom Monitoring System – IoT-inspired prototype for monitoring classroom environmental

conditions and resource utilization.

CERTIFICATIONS

• Python Programming Certification
• Data Science Fundamentals (NIT Training Program)
• Java Programming Certification
• SQL and Database Management Certification
• Introduction to Data Analytics and Visualization
• Fundamentals of Artificial Intelligence

LEADERSHIP & EXPERIENCE

Community & Content Manager – Imitate Labs
Managed online communities, coordinated engagement activities, supported digital campaigns, and contributed to content strategy.

Academic Project Consultant
Provided guidance on project implementation, documentation preparation, technical reporting, and presentation development.

RESEARCH INTERESTS

Data Analytics, Business Intelligence, Artificial Intelligence, Blockchain Applications, Predictive Analytics, Data Visualization, Machine Learning, Data Science Research

PUBLICATION

Ronak N., "Blockchain-Based Certificate Verification System Using Secure Hashing Techniques," Undergraduate Research Project Report, 2026.

ACHIEVEMENTS & ACTIVITIES

• Developed and presented multiple academic software projects.
• Participated in technical workshops, symposiums, and innovation events.
• Prepared IEEE-style project reports and technical documentation.
• Active contributor to collaborative project development activities.

SOFT SKILLS

Problem Solving, Leadership, Team Collaboration, Communication Skills, Critical Thinking, Project Management, Technical Documentation, Time Management

LANGUAGES

English, Tamil, Malayalam, Hindi

CAREER INTERESTS

Data Analyst, Business Analyst, Business Intelligence Developer, Data Scientist, AI Applications Engineer, Research and Development
